CYBERSECURITY MATURITY MODEL CERTIFICATION

DEWPOINT – BRINGING BUSINESS AND TECHNOLOGY TOGETHER

People Who Deliver

- Local senior level certified security professionals with global experience at a competitive price
- Certified by the CMMC Accreditation Body as a Registered Provider Organization (RPO)
- Registered Practitioners (RP's) provide the CMMC knowledge to successfully help your organization prepare for formal CMMC audits
- Provide holistic approach and proven methodologies to Information Technology security
- An approved vendor on the Michigan Economic Development Corporation's (MEDC) Michigan Defense Center (MDC) Bid Targeting System to provide CMMC consulting services

Benefits to Your Organization

- Assist in understanding and determining CMMC level requirements
- Perform a readiness assessment to identify gaps and provide recommendations to help you prepare for CMMC audits
- Ensure your organization has current comprehensive System Security Plans (SSP)'s
- Develop a Plan of Action and Milestones (POA&M) addressing identified deficiencies.
- Prepare your organization for the formal CMMC assessment by conducting trial interviews
- Establish a program to ensure ongoing compliance with CMMC requirements

WHERE WE CAN HELP

- **Readiness Assessments** – Review security program controls against the required CMMC level to identify gaps and provide remediation recommendations
- **Recommendations** - Determine ways to limit the scope of the assessment based upon your organization's structure and IT architecture
- **Develop Scoping Diagrams** - Outline where CUI/FCI data is stored, processed, and transmitted
- **System Security Plan (SSP) Development** – Assist in creating/updating SSP's
- **Plan of Action and Milestones (POA&M) Development** – Assist in creating/updating POA&M
- **Provide Program Management Expertise** - Create and update the ongoing governance necessary to maintain CMMC compliance
- **Ongoing Support and CISO-as-a-Service** – Provide ongoing support to ensure compliance since adherence to the CMMC is continuous and not a one-time task
